Initial Setup of Meter and Connection to MiniMed® Insulin Pump

Charging Meter
1. Remove the USB cap to reveal the USB connector.

The Contour®NEXT LINK 2.4 meter has a permanent rechargeable battery. Charge your meter with the wall charger* or by plugging the USB connector into a computer. Be sure the computer is turned on. Your meter will briefly display “Do Not Test-Charging” and the test strip port light will flash. You cannot do a blood glucose test while the battery is charging.

When charging is finished, the test strip port light will turn off. Unplug your Contour®NEXT LINK 2.4 meter to test.

Unplug Meter From Charging Source Before Beginning Setup
2. To begin setup, hold down the top Menu button for several seconds until the meter turns on.

3. Scroll down to select your language. Press #.

4. Press # if the correct language is displayed. Press # if the incorrect language is displayed.

Connect to Pump
5. Connect to a MiniMed Pump?

Press #.

6. Put the meter down and pick up your pump.

For the MiniMed 630G
7a. Press any button to turn the screen on.

Press the Menu button (L) on your pump does not have a Menu button (L) go to step 7b.

OR

For the MiniMed 670G
7b. Press the Select button (O).

Use the Down arrow button to scroll to Options. Press Select button (O).

A pumping screen appears; press any button to turn it back on.

8. Press the Down arrow button to scroll to Utilities.

Press Select button (O).

In the Utilities menu, use the down arrow to scroll to Device Options.

Press the Select button (O).

9. In the Device Options menu, scroll to Connect Device. Press the Select button (O).

10. Place the meter and pump next to each other. Select Auto Connect on your pump.

Select Remote Connect on your meter.

Select Read Connect on your meter.

*Wall charger may not be included in all meter kits. Contact Customer Service for information on obtaining a wall charger.

11. Read the pump screen, using the down arrow (O) to scroll to the next page.

Use the arrow buttons (O) to scroll to Continue. Press the Select button (O).

12. Place the meter and pump next to each other. Select Search on the pump.

Select Search on the meter.

The search may take up to 2 minutes.

13. Check to see if Device SN (serial number) on the pump matches the Device SN on the meter. If they match, scroll to Confirm on the pump. Press the Select button (O).

When the pump links to the meter, the SN on the meter screen will change to a different serial number. This number is the pump SN.

14. Turn the pump over.

Make sure that the SN on the back of the pump matches the pump serial number now on the meter screen. Press Next.

15. Select Always and press # on next screen.

16. Select the Date Format.

17. Press #. Note: If time and date are incorrect, you must change them on the pump.

18. Press Receipt to select BatchLog is Off.

AutoLog allows you to mark a test result as Fasting, Before Meal, or After Meal. See your user guide to learn more.

Turn the page over to complete setup.
Obtain Blood Drop

1. Insert the test strip and wait for the APPLY BLOOD message.
2. Remove the lancering device cap. Insert the lancet firmly into the lancering device until it comes to a full stop.
3. Replace the endcap. Rotate the endcap dial to adjust the puncture depth.
4. Obtain your blood drop.

Testing Blood Drop

5. Touch the tip of the test strip to the drop of blood. If the first blood drop is not enough, the meter will beep twice and display STRIP UNDERFILLED.
6. You have about 30 seconds to apply more blood to the same strip.

NOTE: If AutoLog is ON, you are asked to mark your result as Fasting, Before Meal, or After Meal before your result displays. If your result is above your set levels, a sound will alert you. If your result is below your set levels, the meter will beep twice and display LOW BLOOD INSTRUMENT before showing your result.

Sending Results to Your Minimed Pump

6. If you have performed cleaning and disinfection, do not use on multiple persons.
7. If you have performed cleaning and disinfection, do not use on multiple persons.
8. Press and hold the Back button to get to the home screen. Your blood sugar result should display on the graph screen.
9. Remove the test strip and the meter will turn off in 3 minutes. Or hold down the Menu button to turn off the meter.

Materials for Testing

- Lancet
- Blood glucose meter

High Alert: 250 mg/dL
Low Alert: 70 mg/dL
Target: 70 - 180 mg/dL

CAUTION: Always check the display on your pump to ensure that the glucose result shown agrees with the glucose result shown on the meter.

Bolus, Reminder, and Notes

7. Select OK to set a reminder for your next test. Select Notes to add more information to the result.
8. Press and hold the Back button to get to the home screen. Your blood sugar result should display on the graph screen.
9. Remove the test strip and the meter will turn off in 3 minutes. Or hold down the Menu button to turn off the meter.

See your CONTOUR NEXT LINK 2.4 user guide, lanceting device insert and MiniMed insulin pump user guide for full instructions.
