Charging Meter

1. Remove the USB cap to reveal the USB connector.

The Contour NEXT LINK 2.4 meter has a permanent rechargeable battery. Charge your meter with the wall charger or by plugging the USB connector into a computer. Be sure the computer is turned on.

Your meter will briefly display "Do Not Test-Charging" and the test strip port light will flash. You cannot do a blood glucose test while the battery is charging.

When charging is finished, the test strip port light will turn off. Unplug your Contour NEXT LINK 2.4 meter to test.

Unplug Meter From Charging Source Before Beginning Setup

2. To begin setup, hold down the Top Menu button for several seconds until the meter turns on.

3. Scroll down to select your language. Press #.

4. Press # if the correct language is displayed. Press # if the incorrect language is displayed.

Connect to Pump

5. Connect to a MiniMed Pump? Press #.

6. Put the meter down and pick up your pump.

For the MiniMed 630G

7a. Press any button to turn the screen on. Press the Menu button on the pump does not have a Menu button on to step 7b. OR

For the MiniMed 670G

7b. Press the Select button. Use the Down arrow button to scroll to Options. Press Select button.

A pump screen is shown, press any button to turn it back on.

8. Press the Down arrow button to scroll to Utilities. Press Select button. Use the down arrow to scroll to Device Options. Press the Select button.

9. In the Device Options menu, scroll to Connect Device. Press the Select button.

10. Place the meter and pump next to each other. Select Auto Connect on your pump.

Initial Setup of Meter and Connection to MiniMed® Insulin Pump

11. Read the pump screen, using the down arrow to scroll to the next page.

Use the arrow buttons to scroll to Continue. Press the Select button.

12. Place the meter and pump next to each other. Select Search on the pump.

The search may take up to 2 minutes.

13. Check to see if Device SN (serial number) on the pump matches the Device SN on the meter.

If they match, scroll to Confirm. Press the Select button.

When the pump links to the meter, the SN on the meter screen will change to a different serial number. This number is the pump SN.

14. Turn the pump over.

Make sure that the SN on the back of the pump matches the pump serial number now on the meter screen. Press Next.

15. Select Always and press # on next screen.

16. Select the Rate Format.

17. Press #. Note: If time and date are incorrect, you must change them on the pump.

18. Press Receipt to select Basal is Off. Auto-og allows you to mark a test result as Fasting, Before Meal, or After Meal. See your user guide to learn more.

Turn the page over to complete setup.

NOTE: Check the units of measure of your meter. See your meter user guide for complete instructions.

*Any charger may not be included in all meter kits. Contact Customer Service for information on obtaining a wall charger.
Obtain Blood Drop

1. Insert the test strip and wait for the APPLY BLOOD message.
2. Remove the lancing device cap. Insert the lancet firmly into the lancet device until it comes to a full stop.
3. Replace the endcap. Rotate the dial to adjust the puncture depth.
4. Obtain your blood drop.

Testing Blood Drop

5. Touch the tip of the test strip to the drop of blood. If the first blood drop is not enough, the meter will beep twice and display the message: DROP UNRECOGNIZED. You have about 30 seconds to apply more blood to the same strip.

Sending Results to Your MiniMed Pump

6. If AutoLog was selected in Seed Options during setup, results will be sent directly to your pump. If AutoLog was not selected in Seed Options during setup, you can choose to send your result to your pump after each blood sugar test.

Bolus, Reminder, and Notes

7. Select Send to bolus a bolus to your pump. Select Reminder to set a reminder for your next test. Select Notes to add more information to the result.

Confirm That Result Was Sent to Pump

8. PIN up your pump. Press and hold the Back button to get to the home screen. Your blood sugar result should display on the pump screen.

Turn Meter Off

9. Remove the test strip and the meter will turn off in 3 minutes. Or hold down the Menu button to turn off the meter.

Testing Your Blood

Materials for Testing

CONTURNEXT test strip
Lancet

Lancing Device

CONTURNEXT LINK 2.4 blood glucose meter

WARNING:

- The meter, lancing device and lancets are for single patient use. Do not share them with anyone, including other family members. Do not use on multiple persons.
- Use a new lancet each time you test because it is no longer sterile after use.
- All parts of the kit are considered biohazardous and can potentially transmit infectious diseases, even after you have performed cleaning and disinfection.
- Always wash your hands well with soap and water and dry them well before and after testing, handling the meter, lancing device, or test strips.

For complete instructions on cleaning and disinfection, please see your meter user guide.

NOTE: If AutoLog is Off, you are asked to mark your result as Fasting, Before Meal, or After Meal before you will see your result without having to make an AutoLog selection.
